July 2025

Dear Parents/Guardians,

As we wrap up another wonderful academic year at CGS Lower, I want to take a moment to express my deepest gratitude to each of you for your unwavering support, collaboration, and trust throughout the year. It has been a year filled with learning, growth, creativity and shared accomplishments!

Our students have blossomed in more ways than one. From mastering new academic concepts and participating in creative projects, to embracing values like kindness, responsibility, and teamwork, they have shown resilience, curiosity, and joy in learning every day. Witnessing their excitement during special events, competitions, and our much-loved theme days has been especially heartwarming!

We also placed a strong emphasis on environmental awareness, encouraging our students to take small but meaningful steps toward a greener future. Whether it was through tree planting, recycling activities, or thoughtful classroom discussions on sustainability, our students took an active part in being responsible global citizens.

As we approach the summer break, I encourage you to take time as a family to relax, reconnect, and celebrate your child's progress. Reading together, exploring nature, and engaging in simple creative activities can be both fun and enriching during the holidays.

To our graduating students and families who are moving on to Middle school - thank you for being a part of our Lower School community. We will miss you and wish you continued success and happiness.

To our continuing families - we look forward to welcoming you back next term, refreshed and ready for another year of learning and exploration.

RS GLOBAL CHALLENGE

This year, students in Round Square schools across the world have set an internationally collaborative challenge to circumnavigate the globe by collectively completing 24,901 miles (40,074 km) by 5th June 2025, which is Round Square Day. Students and teachers from CGS Upper School successfully completed the Round Square Day Global Challenge, covering a total of 107.87 miles through activities such as driving, cycling, walking, rowing, and participating in plantation and vegetation work at the Sonapahar Nature Restoration Project in Mirsharai, Chattogram.

PAJAMA DAY

Lower School students recently enjoyed a day at school in their Pajamas! A relaxed atmosphere ensued nurturing an especially creative day.

UK CONFERENCE AND TOUR

6 CGS, 4 NC students (pictured left) and NC Deputy Head, Raheel Jamal went to the Windermere School, Round Square Conference in The UK. The conference centred around the themes of Environmentalism and Kindness and delegates were taken out of their comfort zones with adventure activities like hiking, sailing, canoeing, and even braving a leap into the chilly lake! An educational tour of London followed, where the team visited Oxford University, Windsor Castle, Stonehenge, Tower of London, Westminster Abbey and several other key London sites.

LOWER ATTAINEEES

Congratulations to our wonderful Attainee's, pictured below who have successfully completed their journey in CGS Lower and now step into CGS Middle School. Best of luck!

July 2025

Dear Reader,

I would like to extend my heartfelt congratulations to all our students, parents and teachers for making it through what has been an eventful, yet deeply rewarding session. With the final exams behind us, it's time for everyone to take a well-deserved break and enjoy the slower pace that the summer holidays bring.

We eagerly await the upcoming PTMs, where we hope every student receives the results they've worked so hard for. I know how much effort has gone into this academic year and I sincerely hope it bears the fruit each child desires.

The month-long summer holiday in July is a time to relax, recharge and reflect. Whether it's through travelling, a family vacation, curling up with a good book or diving into a favourite hobby, I hope every student finds joy in doing what they love. It's also a great time to pick up a new skill or nurture an interest that may have been set aside during the busy school year.

New classrooms, teachers and classmates await our students. We make it a point to reshuffle the sections each year so that children have the opportunity to meet and befriend others across their batch. This helps them build stronger social connections and broader friendships. We do understand that some students feel strongly about these changes but we hope parents will support us in helping them see the bigger picture.

Lastly, I want to extend my heartfelt thanks to all our parents for their unwavering trust and support. Happy Holidays!

Hector Fernandez

July 2025

Dear Students,

July is here, bringing sunshine, adventure, and a chance to press pause on routines. We hope you are enjoying a well deserved break to recharge and have fun. This is the perfect season to explore the outdoors, try new hobbies, spend quality time with friends and family, and make lasting memories. Let your days be filled with exploration, creativity, and the laughter that comes from trying something new.

While you are enjoying your vacation, remember to stay active, breathe fresh air, and embrace the simple joy of being outside. Use some of this downtime to set personal goals, learn a new skill, volunteer locally, or connect with family more often. A short digital detox can help clear your mind: try putting your phone aside for an hour each day and seeing where your imagination leads you. And, of course, keep sipping water to stay refreshed under the summer sun.

Nurture your mental health by carving out me time. Journal your thoughts, practice short meditations, or simply sit quietly with a cup of your favorite drink. Connecting with friends and family through calls, visits, or even handwritten letters can boost your spirits and remind you of the support you have around you.

While you bask in these carefree days, keep one eye on the horizon. A fresh academic year awaits, brimming with opportunities to learn, grow, and shine. So relish every summer moment, revitalize yourself, and return eager and prepared for the exciting challenges ahead!

Godspeed to all our graduates leaving us!
